

## FACTS ABOUT TRANSPLANTATION IN THE UNITED STATES

On October 23, 2020, the OPTN National patient waiting list for organ transplant includes the following:

<b>Registrations</b>			<b>Patients</b>		
	<i>Active</i>	<i>Total</i>		<i>Active</i>	<i>Total</i>
Waiting for <i>kidney</i>	• 59,672	• 99,543	Waiting for <i>kidney</i>	• 55,223	• 91,868
Waiting for <i>liver</i>	• 9,594	• 12,374	Waiting for <i>liver</i>	• 9,462	• 12,175
Waiting for <i>pancreas</i>	• 205	• 899	Waiting for <i>pancreas</i>	• 204	• 892
Waiting for <i>pancreas islet cell</i>	• 4	• 76	Waiting for <i>pancreas islet cell</i>	• 4	• 75
Waiting for <i>kidney-pancreas</i>	• 852	• 1,782	Waiting for <i>kidney-pancreas</i>	• 822	• 1,724
Waiting for <i>intestine</i>	• 147	• 231	Waiting for <i>intestine</i>	• 147	• 231
Waiting for <i>heart</i>	• 2,635	• 3,548	Waiting for <i>heart</i>	• 2,613	• 3,523
Waiting for <i>heart-lung</i>	• 32	• 44	Waiting for <i>heart-lung</i>	• 32	• 44
Waiting for <i>lung</i>	• 812	• 1,018	Waiting for <i>lung</i>	• 801	• 1,004
Waiting for <i>VCA</i>	• 20	• 20	Waiting for <i>VCA</i>	• 20	• 20
<b>TOTAL REGISTRATIONS</b>	• 73,973	• 119,535	<b>TOTAL PATIENTS*</b>	• 67,755	• 108,832

NOTE: This table shows the total number of registered candidates on the waiting list, as well as the current number of active candidates eligible to be considered for organ offers. Some transplant candidates are temporarily classified as “inactive” by their transplant center because they are medically unsuitable for transplantation or need to complete other eligibility requirements. OPTN policies allow patients to be listed with more than one transplant center (multiple-listing), and thus the number of registrations is greater than the actual number of patients. If a candidate is actively listed at one center and inactively listed at another, only the active listing will be tallied with regards to the unique patient counts (not counted as an inactive patient).

\* Some patients are waiting for more than one organ, therefore the total number of patients is less than the sum of patients waiting for each organ.

### Numbers of Transplants Performed, 2019\*\*

• 23,401	<i>kidney</i> (no pancreas) transplants	(6,867 living donors).
• 8,896	<i>liver</i> transplants.	
• 143	<i>pancreas</i> (no kidney) transplants.	
• 872	<i>kidney-pancreas</i> transplants.	
• 81	<i>intestine</i> transplants.	
• 3,552	<i>heart</i> transplants.	
• 45	<i>heart-lung</i> transplants.	
• 2,714	<i>lung</i> transplants.	
• 15	<i>VCA</i> transplants.	
• 39,719	<b>TOTAL</b>	

### Number of Donors Recovered, 2019\*\*

• 11,870	Deceased
• 7,388	Living
• 19,258	<b>TOTAL</b>

During 2019, 5,181 patients were removed from the OPTN National patient waiting list for reason of death.\*\*

\*\* Based on OPTN data as of October 23, 2020. Double kidney, double lung and heart-lung transplants are counted as one transplant.

NOTE: Data subject to change due to future data submission or correction.

As of October 23, 2020, OPTN membership included the following:

- 251 Transplant Centers
- 8 Business Members
- 58 Operating Organ Procurement Organizations (OPOs)
- 143 Histocompatibility Laboratories
- 8 General Public Members
- 12 Medical/Scientific Organizations
- 8 Individual
- 387 **TOTAL\***

\* There are 7 OPTN members that operate both transplant centers and in-house OPOs and 94 that operate both transplant centers and in-house histocompatibility laboratories. These members are included in both the count of transplant centers and operating OPOs. For this reason, the total number of members is less than the sum of the different categories.

As of October 23, 2020, 251 medical institutions in the United States operate an organ transplant program.

These transplant centers can be separated into organ specific programs that include the following active programs:

- 233 Kidney Transplant Programs
- 144 Liver Transplant Programs
- 130 Pancreas Transplant Programs
- 20 Pancreas Islet Cell Transplant Programs
- 21 Intestine Transplant Programs
- 146 Heart Transplant Programs
- 70 Lung Transplant Programs
- 28 VCA Transplant Programs
- 792 **TOTAL**

### Kidney Paired Donation (KPD) Statistics as of October 23, 2020

Participants: In the week of October 13, 2020 there were 137 candidates included in the OPTN KPD matching algorithm.

Transplants: During 2019, there were 42 transplants performed in the OPTN KPD program and 1114 living donor kidney transplants performed in the U.S. reported as paired donations.
